

DOMAINE DU PETIT COTEAU
Vouvray Sec
« Les Grenouilles »

Domaine du Petit Coteau practices organic farming methods (Ecocert certification). No herbicides or insecticides are used to protect the Chenin Blanc berries, which in turn ensures that the local fauna, flora and human health are protected.

Dry Vouvray comes from a very specific parcel of land on red clay and yellow tuffeau substrate from the Turonian period, and is characterized by its magnificent mineral appearance.

The juice is vinified in temperature-controlled tanks, which imparts a beautiful roundness and a slight hint of acidity.

Its aromas of white flowers, dill and aniseed are sure to take you by surprise.

Enjoy this wine well chilled as an aperitif or with appetizers such as seafood and shellfish.
